

# Forever Green

Beautifying the Lowcountry since 1989

*Character is like a tree and  
reputation like a shadow.  
The shadow is what we  
think of it; the tree is the  
real thing.*

-Abraham Lincoln

There aren't guarantees that April showers will bring flowers...

But thankfully, you can get them from us!

**Continue** bed and pavement weed control efforts throughout the remainder of the year.

**Reduce** the height of the warm season turf such as Zoysia or Bermuda grass to a height of one inch or less to encourage quicker spring green up.

**Schedule** property inspection with the customer.

**Alternate** edging between the curbs one week, bed lines and hard lines the next week.

**Energize** irrigation systems as necessary. Inspect system for operational status and repair as necessary. Complete all irrigation startups by April 10<sup>th</sup>.\*

**Irrigate** landscape only as necessary. Do not irrigate on a daily basis or early in the evening. As a rule of thumb, apply one inch of water per week depending on rainfall.

**Continue** treating fire ant mounds as they appear.\*

We are there when you need us,  
even when you don't know you do.

**April 2011**  
Thank you for supporting  
your local businesses.

**Install** spring/summer seasonal color rotation after any threat of frost. (April 15<sup>th</sup>)\*

**Monitor** ornamental plant material for possible insect and disease problems such as lace bug, spider mites, aphids and powdery mildew.

**Continue** fertilization of shrubs according to contract requirements.

\*Depending upon contract agreement
